## 1. Qualitative information related to financial results for the quarter under review

### (1) Explanation of Business Results

During the third quarter of the consolidated fiscal year (from April 1, 2018 to December 31, 2018), although the global economy was on a moderate recovery trend primarily in developed nations, the risk of economic downturn continues to remain due to factors such as the trade conflict caused by the US trade policy. While there is concern about the negative impact on the economy caused by natural disasters, the Japanese economy was on a moderate recovery trend owing to an improvement in the employment and income conditions against a backdrop of solid corporate earnings.

Under such circumstances, the Company Group posted net sales of 18,445 million yen for the quarter under review, an increase of 643 million yen (3.6%) from the corresponding period of the previous consolidated fiscal year. Overseas sales accounted for 8,329 million yen (45.2% of net sales), an increase of 726 million yen (9.6%).

Concerning profits, although selling, general and administrative expenses increased by 376 million yen (4.1%) from the corresponding period of the previous consolidated fiscal year, operating income accounted for 1,323 million yen, an increase of 187 million yen (16.5%) owing to an increase in the net sales. However, the impact of exchange rates had a negative effect on non-operating income, yielding ordinary income of 1,270 million yen, a decrease of 10 million yen (0.8%). Profit attributable to owners of parent, after deducting tax expenses, was 892 million yen, a decrease of 40 million yen (4.3%).

#### (Dental business)

Domestically, the “AIRFLOW PROPHYLAXIS MASTER,” a dental multi-purpose ultrasonic therapy machine, which were introduced to the market during the third quarter of the consolidated fiscal year under review, and “SHOFU BeautiBond Universal,” a dental dentin adhesive, etc. contributed to sales. However, due to the intensified competition in the market, sales decreased from the corresponding period of the previous consolidated fiscal year. Looking overseas, with solid sales performance in each region mainly in North America, Central and South America and Asia including China, sales increased year on year.

As a result of these factors, net sales for the quarter under review increased 688 million yen (4.3%) from the corresponding period of the previous consolidated fiscal year to 16,592 million yen, and operating income increased 243 million yen (22.3%) to 1,337 million yen despite an increase in selling, general and administrative expenses.

#### (Nail care business)

Domestically, with sales driven by our mainstay brands of LED gel “Presto” and “by Nail Labo” gel nail system for general consumers, the new “ageha” brand which was introduced to the market during the previous fiscal year and gel nail products, sales increased from corresponding period of the previous consolidated fiscal year. Looking overseas, although sales were solid in the US, as competitors are taking increasingly aggressive actions in Taiwan, sales decreased from corresponding period of the previous consolidated fiscal year.

As a result of these factors, net sales for the quarter under review decreased 44 million yen (2.5%) from the corresponding period of the previous consolidated fiscal year to 1,776 million yen. Concerning profits, due to an increase in costs for promotion activities, operating loss was decreased 54 million yen to 32 million yen.

#### (Other businesses)

SHOFU PRODUCTS KYOTO INC., a Group company, uses its dental abrasives manufacturing technology to manufacture and sell industrial abrasives. Net sales in the “other businesses” segment for the corresponding period of the previous consolidated fiscal year to 75 million yen, and operating income remained largely unchanged from the corresponding period of the previous consolidated fiscal year to 13 million yen.

### (2) Explanation of Financial Position

Total assets at the end of the quarter under review decreased by 1,559 million yen from the end of the previous consolidated fiscal year to 29,331 million yen. The primary factor for the decrease in assets was a decrease in

investment securities due to market price decline.

Liabilities decreased by 1,177 million yen to 5,556 million yen. The primary factor was a decrease in long-term loans payable and long-term deferred tax liabilities.

Net assets decreased by 381 million yen to 23,775 million yen. The primary factor was a decrease in Valuation difference on available-for-sale securities.

As a result of the above, the capital-to-assets ratio rose to 80.7%, an increase of 2.9 points from the end of the previous consolidated fiscal year.

(3) Explanation of Future Forecast Information including Consolidated Business Results Forecasts

We have not revised the performance forecast for the fiscal year ending March 31, 2019, as announced on May 10, 2018.

(3) Notes to Quarterly Consolidated Financial Statements

(Notes Relating to Assumptions for the Going Concern)

Not applicable.

(Notes to Significant Changes in the Amounts of Shareholders' Equity)

Not applicable.

(Application of Special Accounting Processing in the Compilation of Quarterly Financial Statements).

Calculation of tax expenses

To calculate tax expenses, we made a reasonable estimate of the effective tax rate after the application of tax effect accounting to current net income before tax for the current consolidated fiscal year and then multiplied the current net income before tax for the quarter under review by the estimated effective tax rate. However, where use of the estimated effective tax rate to calculate tax expenses would result in an unreasonable figure, we have used the legal effective tax rate instead.

(Additional Information )

(Application of “Partial Amendments to Accounting Standard for Tax Effect Accounting”, etc.)

We adopted “Partial Amendments to Accounting Standard for Tax Effect Accounting” (ASBJ Statement No.28; February 16, 2018), etc. from the beginning of the first quarter of the current consolidated fiscal year, and therefore, deferred tax assets and deferred tax liabilities have been reflected in the classification of investments and other assets and noncurrent liabilities respectively.
